Independent Auditor's Report

Board of Trustees
Kansas Eastern Region Insurance Trust
Kansas City, Missouri

Opinions

We have audited the statutory financial statements of Kansas Eastern Region Insurance Trust (KERIT), which comprise the statutory statements of admitted assets, liabilities and surplus as of December 31, 2021 and 2020, and the related statutory statements of revenues, expenses and changes in surplus and cash flows for the years then ended, and the related notes to the statutory financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the accompanying financial statements present fairly, in all material respects, the statutory financial position of KERIT as of December 31, 2021 and 2020, and the results of its operations and its cash flows for the years then ended in accordance with the basis of accounting described in *Note 1*.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" section of our report, the financial statements do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the statutory financial position of KERIT as of December 31, 2021 and 2020, or the results of its operations and its cash flows for the years then ended.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of KERIT and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in *Note 1* to the statutory financial statements, the financial statements are prepared by KERIT in accordance with the accounting practices prescribed or permitted by the Kansas Insurance Department, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of the Kansas' statutes. The effects on the financial statements of the variances between the regulatory basis of accounting described in *Note 1* and accounting principles generally accepted in the United States of America, are material and pervasive as discussed in *Note 1*.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the statutory financial statements in accordance with the accounting practices prescribed or permitted by the Kansas Insurance Department. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the statutory financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about KERIT's ability to continue as a going concern within one year after the date that these statutory financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the statutory financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the statutory financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the statutory financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the statutory financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of KERIT's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the statutory financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about KERIT's ability to continue as a going concern for a reasonable period of time.

Board of Trustees
Kansas Eastern Region Insurance Trust
Page 3

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

1. Reporting Entity and Significant Accounting Policies

A. The Reporting Entity

The Kansas Eastern Region Insurance Trust (KERIT) was formed on November 1, 1986 as a self-insurance program to cover workers' compensation claims for its members. Members of the Trust, located primarily in eastern Kansas, includes cities, counties and a park and recreation district.

KERIT's general objectives are to provide a self-insured program for local governments; to improve the loss prevention program to reduce claims and accidents; to reduce costs through sound and equitable claim management practices; and to provide excess insurance at a discount based on volume and lower risk exposure.

Local governments joining the Trust must remain members a minimum of three years; a member may withdraw from the Trust after that time by giving written notice at least ninety days prior to January 1. The Board of Trustees may grant approval to cities and counties applying for membership in the Trust under such terms and conditions as the Board may, from time to time, determine.

Trust underwriting and rate-setting policies have been established after consultation with the service agent, Thomas McGee Group and in accordance with state workers' compensation laws and the Kansas Insurance Department regulations. Trust members are subject to additional contribution assessments in the event of deficiencies and may receive a refund of contributions from those claim years when revenues exceeded expenses. The Board of Trustees must specifically authorize refunds of contributions.

KERIT has contracted with Thomas McGee Group to provide a coordinated underwriting, loss control, marketing and claims program. KERIT also contracts with the Mid-America Regional Council for accounting services. KERIT has no employees.

B. Significant Accounting Policies

The accompanying financial statements have been prepared in conformity with statutory accounting principles prescribed or permitted by the Kansas Insurance Department which vary, in some respects, from generally accepted accounting principles (GAAP). KERIT has adopted the codification principles which provide a comprehensive basis of statutory accounting and reporting and which have been approved by the National Association of Insurance Commissioners (NAIC) and adopted by the Kansas Insurance Department. "Prescribed" statutory accounting practices include state laws, regulations, and general administrative rules, as well as a variety of publications of the NAIC. "Permitted"

Kansas Eastern Region Insurance Trust
Notes to Statutory Financial Statements, Continued
For the Years Ended December 31, 2021 and 2020

statutory accounting practices include all accounting practices that are not prescribed, but are allowed by the domiciliary state insurance department. The most significant differences between prescribed statutory accounting practices and GAAP are as follows:

- Investments are valued on a basis prescribed by the NAIC. Under GAAP for governmental entities, investments are carried at fair value and changes in fair values are recognized in the operating statement. The balances under both methods are shown below:

	2021	2020	Increase/ (Decrease)
Investments - NAIC	\$ 7,680,530	\$ 7,263,244	\$ 417,286
Investments - GAAP	<u>7,646,625</u>	<u>7,343,985</u>	<u>302,640</u>
Difference	<u>\$ 33,905</u>	<u>\$ (80,741)</u>	<u>\$ 114,646</u>

- Certain assets designated as “nonadmitted assets” have been charged to members’ fund balance. Under GAAP, those assets would have been reported at the lower of cost or net realizable value. KERIT’s principal nonadmitted assets are prepaid expenses and unbilled supplemental assessments. Nonadmitted assets were as follows:

	2021	2020	Increase/ (Decrease)
Prepaid expenses	\$ 13,529	\$ 14,670	\$ (1,141)
Unbilled supplemental assessments	<u>402,120</u>	<u>471,734</u>	<u>(69,614)</u>
Total	<u>\$ 415,649</u>	<u>\$ 486,404</u>	<u>\$ (70,755)</u>

- Comparisons of the results of operations for the fiscal years ended December 31, 2021 and 2020 under the two different sets of accounting principles follow:

	GAAP 2021	NAIC 2021	Difference
Net underwriting/operating gain	\$ 68,713	\$ 68,713	\$ -
Net investment income	(23,252)	91,393	(114,645)
Change in nonadmitted assets	-	70,755	(70,755)
Members' fund balance, beginning of year	<u>6,968,926</u>	<u>6,401,782</u>	<u>567,144</u>
Members' fund balance, end of year	<u>\$ 7,014,387</u>	<u>\$ 6,632,643</u>	<u>\$ 381,744</u>

Members' fund balance, end of year	<u>\$ 6,968,926</u>	<u>\$ 6,401,782</u>	<u>\$ 567,144</u>

Assets, Liabilities and Surplus

Cash and Cash Equivalents – Cash consists of interest bearing accounts at financial institutions. Cash equivalents, those with original maturities of three months or less, consist of money market mutual funds which are redeemable upon demand, pay interest daily, and hold a constant \$1 per share value.

Investments – Investment carrying values have been determined in accordance with the methods prescribed by the NAIC. Bonds are reported at amortized cost, which is calculated using the effective interest method. Investment income is recorded when earned. Realized capital gains and losses are recognized upon the sale of securities using the specific identification method. A decline in a security's net realizable value that is other than temporary is treated as a realized loss in the statement of revenues, expenses and changes in surplus and the cost basis of the security is reduced to its estimated fair value.

Excess Insurance Recoverables – KERIT uses excess insurance agreements to reduce its exposure to large losses. Excess insurance permits recovery of a portion of losses from the excess insurers, although it does not discharge the primary liability of KERIT as direct insurer of the risks and KERIT thus remains contingently liable for amounts which excess carriers might be unable to pay. The excess insurance recoverables based on paid claims as of December 31, 2021 and 2020 are shown below:

	December 31, 2021	December 31, 2020
Specific excess insurance recoverable on paid claims	<u>\$ 14,169</u>	<u>\$ 829</u>

Kansas Eastern Region Insurance Trust
Notes to Statutory Financial Statements, Continued
For the Years Ended December 31, 2021 and 2020

Claim Reserves – KERIT establishes claim liabilities based on estimates of the ultimate cost: 1) of claims (including future claim adjustment expenses) that have been reported but not settled, and 2) of claims that have been incurred but not reported. Such liabilities are based on complex factors, such as inflation, changes in doctrines of legal liability and damage awards, and while management believes the amounts are adequate, the ultimate liability may be in excess of or less than the amount provided.

Claim liabilities are estimated periodically, using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency, and other economic and social factors. A provision for inflation in the calculation of estimated future claims costs is implicit in the calculations because reliance is placed both on actual historical data that reflect past inflation and on other factors that are considered to be appropriate modifiers of past experience. Claim liabilities are not discounted to their estimated present values.

Adjustments to claims liabilities are charged or credited to expense in the fiscal year they become known. The claim reserves have been reduced by \$1,466,359 as of December 31, 2021 and by \$1,349,076 as of December 31, 2020 for the excess insurance recoverable for unpaid claims in the 2001, 2005, 2008 and 2010 claims years, as shown below:

	December 31, 2021	December 31, 2020
Specific excess insurance recoverable on unpaid claims:		
Claim year 2001	\$ 445,300	\$ 445,300
Claim year 2005	569,952	620,121
Claim year 2008	222,863	54,214
Claim year 2010	228,244	229,441
	<u>\$ 1,466,359</u>	<u>\$ 1,349,076</u>

The excess insurance agreement for claim year 2001 is with Swiss Re, which is rated A+ Superior by A.M. Best Company. The excess insurance agreement for claim years 2005, 2008 and 2010 is with Safety National Casualty Corporation, which is rated A+ Superior by A.M. Best Company.

Unallocated Loss Adjustment Expenses – This reserve recognizes the future cost of claims administration for all open claims and incurred but not reported claims.

Advanced Contributions – Contributions are often collected in advance of the claim year. The contributions are calculated using underwriting criteria for workers' compensation as required by state statute. Advanced contributions represent

Kansas Eastern Region Insurance Trust
Notes to Statutory Financial Statements, Continued
For the Years Ended December 31, 2021 and 2020

amounts paid by KERIT members prior to the effective coverage date.

Excess Contributions – Contributions are billed and collected in advance and recognized as revenue over the period for which insurance protection is provided. The contributions are calculated using estimates of each member’s payroll. After the end of the claim year the contributions are recalculated using actual payroll information, resulting in either additional contributions due to KERIT or a liability for excess contributions received.

Members’ Fund Balance – Members’ fund balance is maintained on a claim year basis. The membership of any given claim year can change depending upon the governmental entities participating in the KERIT program. As discussed above, KERIT is an assessable pool and members participating in a given claim year will be assessed additional contributions if expenses exceed revenues for such claim year. To the extent that revenues exceed expenses in a given claim year after all or nearly all related claims have been settled and the Board of Trustees authorizes a full or partial distribution of the surplus for the claim year, members participating in such claim year will be entitled to receive a refund of contributions.

The following chart reflects the members’ fund balance by claim year as of December 31, 2021. The members’ fund balance is the net of the cumulative operating surplus/(deficit), supplemental assessments and refunds of contributions.

Revenues and Expenses

Contributions – Contributions are billed in advance and recognized as revenue over the period for which insurance protection is provided. Contributions are calculated using underwriting criteria for workers' compensation coverage.

Incurred Losses and Recoveries – Incurred losses and recoveries represent the expense of providing workers' compensation benefits as mandated by state workers' compensation laws and Kansas Insurance Department regulations. The incurred losses and recoveries include:

- Paid claims
- Claim reserves
- Incurred but not reported claims and loss development reserves
- Excess insurance recoveries and other recoveries

Refunds of Contributions – Refunds of contributions are distributions to the members of excess members' fund balance. To the extent that revenues exceed expenses in a given claim year after all or nearly all related claims have been settled and the Board of Trustees authorizes a full or partial distribution of the surplus for the claim year, members participating in such claim year will be entitled to receive a refund of contributions.

Statement of Cash Flows – For purposes of the statement of cash flows, cash and cash equivalents includes deposit accounts. There were no noncash capital or financing activities during fiscal years ending December 31, 2021 and 2020.

Federal and State Income Taxes – In the opinion of legal counsel, KERIT is not subject to income taxes under Section 115 of the Internal Revenue Code.

Use of Estimates – The preparation of financial statements in conformity with NAIC statutory accounting practices requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Notes to Statutory Financial Statements, Continued
For the Years Ended December 31, 2021 and 2020

2. Self-Insured Retention and Excess Insurance

KERIT uses excess insurance agreements to reduce its exposure to large workers' compensation losses. Excess insurance permits recovery of a portion of losses from the excess insurers, although it does not discharge the primary liability of KERIT as direct insurer of the risks.

KERIT retains responsibility for the payment of claims within specified self-insured retention limits prior to the application of coverage provided by its excess insurance. For all claim years before 2010, KERIT has purchased specific (per occurrence) and aggregate excess insurance coverage. Beginning with claim year 2010, aggregate excess insurance was dropped from the policy. The following chart reflects the self-insured retention amounts and the excess insurance limits:

	Claim Year				
	2012	2013	2014	2015	2016
Self-insured retention:					
Specific reinsurance	\$ 450,000	\$ 500,000	\$ 500,000	\$ 500,000	\$ 500,000
Aggregate reinsurance	-	-	-	-	-
Limits:

Notes to Statutory Financial Statements, Continued
For the Years Ended December 31, 2021 and 2020

3. Reconciliation of Claim Reserves

Claim reserves are based upon estimates of the ultimate cost of claims that have been reported but not settled, and of claims that have been incurred but not reported. The changes in claim reserves from the beginning of the year are as follows:

	2021	2020
Claim reserves at beginning of year, net of recoveries	<u>\$ 3,958,802</u>	<u>\$ 4,045,546</u>
Incurred claims and claim adjustment expenses:		
Provision for insured events of the current year	2,350,654	1,906,728
Decrease in provision for insured events of prior years	<u>(601,441)</u>	<u>(439,451)</u>
Total incurred claims and claim adjustment expenses	<u>1,749,213</u>	<u>1,467,277</u>
Payments:		
Claims and claim adjustment expenses attributable to insured events of the current year	747,732	559,502
Claims and claim adjustment expenses attributable to insured events of prior years	<u>1,072,903</u>	<u>994,519</u>
Total payments, net of recoveries	<u>1,820,635</u>	<u>1,554,021</u>
Claim reserves at end of year, net of recoveries	<u><u>\$ 3,887,380</u></u>	<u><u>\$ 3,958,802</u></u>

As a result of changes in estimates, the provision for unpaid claims and claim adjustment decreased by \$601,441 in 2021 and by \$439,451 in 2020.

4. Cash and Cash Equivalents

KERIT maintains various deposit accounts to handle the cash receipts, disbursements and idle cash balance. Uninsured balances of approximately \$3.4 million as of December 31, 2021 and \$3.3 million as of December 31, 2020 are collateralized with securities held by the pledging financial institution's trust department. KERIT has an arrangement with the bank to automatically transfer funds on a daily basis from the short-term investments account to the two checking accounts as checks are processed and posted to the checking accounts.

Kansas Eastern Region Insurance Trust
Notes to Statutory Financial Statements, Continued
For the Years Ended December 31, 2021 and 2020

December 31, 2021	Carrying Value
Cash (outstanding checks)	\$ (85,115)
Cash equivalents	<u>3,658,553</u>
Total cash and cash equivalents	<u>\$ 3,573,438</u>

December 31, 2020	Carrying Value
Cash (outstanding checks and deposits in transit)	\$ 338,932
Cash equivalents	<u>3,641,699</u>
Total cash and cash equivalents	<u>\$ 3,980,631</u>

5. Investments

KERIT's trust agreement and bylaws contain no provision regarding deposits or the type of investments that may be purchased. The state of Kansas restricts the types of investments that KERIT may purchase. Permitted investments include government and corporate obligations, stocks, real estate and a variety of other securities and debt instruments, although many of the options are available only if a number of specified criteria are satisfied.

KERIT's Board-approved investment policy allows investments in the following:

1. U.S. Treasury securities (bills, notes or bonds) or securities guaranteed by the U.S. Government;
2. Securities issued by agencies of the U.S. Government (including mortgage-backed securities) but not necessarily guaranteed by the U.S. Government;
3. Federally insured certificates of deposit in banks; or
4. Agency-issued pass-through mortgage-backed securities with stated maturities of up to 30 years.

Kansas Eastern Region Insurance Trust
Notes to Statutory Financial Statements, Continued
For the Years Ended December 31, 2021 and 2020

KERIT's investments are solely in U.S. government agency bonds and certificate of deposits, which are not considered to have credit risk. Fair values of investments are generally based on quotes supported by an independent pricing service. Investment balances at December 31, 2021 and 2020 are as follows:

	Carrying Value	Gross Unrealized Gain	Gross Unrealized Loss	Estimated Fair Value
December 31, 2021				
U.S. Government sponsored agency obligations	\$ 6,200,530	\$ 32,160	\$ (66,064)	\$ 6,166,626
Certificate of deposits	1,480,000	-	-	1,480,000
Total	<u>\$ 7,680,530</u>	<u>\$ 32,160</u>	<u>\$ (66,064)</u>	<u>\$ 7,646,626</u>
	Carrying Value	Gross Unrealized Gain	Gross Unrealized Loss	Estimated Fair Value
December 31, 2020				
U.S. Government sponsored agency obligations	\$ 5,283,585	\$ 84,695	\$ (6,834)	\$ 5,361,446
U.S. Treasury Note	249,659	2,880	-	252,539
Certificate of deposits	1,730,000	-	-	1,730,000
Total	<u>\$ 7,263,244</u>	<u>\$ 87,575</u>	<u>\$ (6,834)</u>	<u>\$ 7,343,985</u>

Certain investments in the statutory financial statements have a fair value less than their cost. Total fair value of these investments at December 31, 2021 was \$5,032,880, which is approximately 45% of KERIT's cash and invested assets at December 31, 2021. These changes primarily resulted from market fluctuations and changes in interest rates. As of December 31, 2020, securities totaling \$1,038,147 were in a loss position.

Based on evaluation of available evidence, including recent changes in market conditions, credit rating information and information obtained from regulatory filings, management believes the declines in fair value for these securities are temporary.

Should the impairment of any of these securities become other than temporary, the cost basis of the investment will be reduced and the resulting loss recognized in net income in the period the other-than-temporary impairment is identified. During 2021 and 2020, there were no investments where the impairment was considered other than temporary.

Kansas Eastern Region Insurance Trust
Notes to Statutory Financial Statements, Continued
For the Years Ended December 31, 2021 and 2020

The following tables show KERIT's investments' gross unrealized losses and fair value, aggregated by length of time that individual securities have been in a continuous unrealized loss position at December 31, 2021 and 2020:

December 31, 2021

Description of Securities	Less Than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Bonds						
U.S. Government sponsored agency obligations securities	\$ 4,286,348	\$ (65,526)	\$ 746,532	\$ (538)	\$ 5,032,880	\$ (66,064)
	<u>\$ 4,286,348</u>	<u>\$ (65,526)</u>	<u>\$ 746,532</u>	<u>\$ (538)</u>	<u>\$ 5,032,880</u>	<u>\$ (66,064)</u>

December 31, 2020

Description of Securities	Less Than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Bonds						
U.S. Government sponsored agency obligations securities	\$ 1,038,147	\$ (6,834)	\$ -	\$ -	\$ 1,038,147	\$ (6,834)
	<u>\$ 1,038,147</u>	<u>\$ (6,834)</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,038,147</u>	<u>\$ (6,834)</u>

The carrying value and fair value of bonds at December 31, 2021, by contractual maturity, is as follows. Actual maturities may differ from contractual maturities because certain borrowers have the right to call or repay obligations with or without call or prepayment penalties.

	Carrying Value	Fair Value
Years to maturity		
One or less	\$ 490,000	\$ 490,000
After one through five	3,127,735	3,091,170
After five through ten	2,503,309	2,487,896
Due after ten years	<u>1,559,486</u>	<u>1,577,560</u>
Total investments	<u>\$ 7,680,530</u>	<u>\$ 7,646,626</u>

Proceeds from sales and maturities of investments during 2021 and 2020 were \$2,799,288 and \$5,670,920, respectively. Included in investment income is gross losses of \$25,844 and \$14,497.

6. Fair Values of Financial Instruments

Financial instruments are periodically measured at fair value, such as when impaired, or, for certain bonds when carried at the lower of cost or market.

Kansas Eastern Region Insurance Trust
Notes to Statutory Financial Statements, Continued
For the Years Ended December 31, 2021 and 2020

The fair value of an asset is the amount at which that asset could be bought or sold in a current transaction between willing parties, that is, other than in a forced or liquidation sale. The fair value of a liability is the amount at which that liability could be incurred or settled in a current transaction between willing parties, that is, other than in a forced or liquidation sale.

Fair values are based on quoted market prices when available. When market prices are not available, fair value is generally estimated using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality (matrix pricing). In instances where there is little or no market activity for the same or similar instruments, KERIT estimates fair value using methods, models and assumptions that management believes market participants would use to determine a current transaction price. These valuation techniques involve some level of management estimation and judgment which becomes significant with increasingly complex instruments or pricing models. Where appropriate, adjustments are included to reflect the risk inherent in a particular methodology, model or input used.

KERIT's financial assets and liabilities carried at fair value have been classified for disclosure purposes, based on a hierarchy defined by SSAP 100R, *Fair Value Measurements*. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3). The levels of the fair value hierarchy are as follows:

- Level 1** Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.
- Level 2** Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.
- Level 3** Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect KERIT's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

Kansas Eastern Region Insurance Trust
Notes to Statutory Financial Statements, Continued
For the Years Ended December 31, 2021 and 2020

The carrying amounts and fair values of KERIT's financial instruments at December 31 are as follows:

	Admitted Value	Fair Value	2021		
			Level 1	Level 2	Level 3
Financial Instruments - Assets					
U.S. Government sponsored agency obligations	\$ 6,200,530	\$ 6,166,626	\$ -	\$ 6,166,626	\$ -

Certificate of deposits	1,730,000	1,730,000	1,730,000	-	-
Total financial instruments - assets	<u>\$11,243,875</u>	<u>\$11,324,616</u>	<u>\$ 5,710,631</u>	<u>\$ 5,613,985</u>	<u>\$ -</u>

7. Service Agency Agreement

KERIT has entered into separate agreements with two companies whereby KERIT is to receive administrative, accounting, loss control and claims management services for the workers' compensation program for service fees. For fiscal years 2021 and 2020, these fees totaled \$337,586 and \$304,516, respectively.

8. Structured Settlements

In 2004, KERIT entered into a structured settlement with Medicare to cover future medical costs for a claim. As part of the settlement, KERIT purchased an annuity to cover costs up to \$77,047. The present value of the annuity is \$28,954. Should the life insurer fail to perform under the terms of the annuity, KERIT would then be liable to make payments up to the covered medical costs.

The Lincoln National Life Insurance Co. of Alabama formerly known as Liberty Life Assurance Co. of Boston	No	\$ 28,954

9. Risk Management

KERIT is exposed to various risks of loss related to torts, trustee automobile travel, and errors and omissions. KERIT does not own property or have employees. KERIT has purchased commercial errors and omissions, fidelity bond, and automobile coverages. There have been no claims on any of the purchased coverages since inception.

10. Contingencies

As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen which may negatively affect the financial position, results of operations and cash flows of KERIT. These include declines in the market value of investments held by the company as well as contributions earned from workers compensation premiums. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.

11. Subsequent Events

Subsequent events have been evaluated through May 11, 2022, which is the date the statutory financial statements were available to be issued.

Independent Auditor's Report on Supplementary Information

Board of Trustees
Kansas Eastern Region Insurance Trust
Kansas City, Missouri

Our 2021 audit was conducted for the purpose of forming an opinion on the 2021 basic statutory financial statements as a whole. The statutory financial statements were prepared on the basis of accounting practices prescribed or permitted by the Kansas Insurance Department. The accompanying supplemental schedules as of and for the year ended December 31, 2021, listed in the table of contents, are presented for the purpose of complying with the National Association of Insurance Commissioners' *Instructions to Annual Audited Financial Reports* and the National Association of Insurance Commissioners' *Accounting Practices and Procedures Manual* and are presented for purposes of additional analysis and are not a required part of the 2021 basic statutory financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2021 basic statutory financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2021 basic statutory financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the statutory financial statements or to the statutory financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the 2021 basic statutory financial statements as a whole.

Schedule of Reinsurance Disclosures

December 31, 2021

1. Has the reporting entity reinsured any risk with any other entity under quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss cap, an aggregate limit or any similar provisions)? Yes () No (X)
2. If yes, indicate the number of reinsurance contracts containing such provisions.
_____ Yes () No ()
3. If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)? Yes () No ()
4. Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on the risk, or portion thereof, reinsured? Yes () No (X)
5. If yes, give full information. _____
6. Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:
 - (a) A contract term longer than two years and the contract is noncancelable by the reporting entity during the contract term;
 - (b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
 - (c) Aggregate stop loss reinsurance coverage;
 - (d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
 - (e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
